Riverside Holiday Park pedal-carts offer fun for the whole family.

Dimboola's Riverside Holiday Park has strengthened its attraction as a family friendly destination with the arrival of four new pedal-carts.

Following the success of the cabins installed last year, the latest additions are two 4-seat carts and two single seat carts available for hire by families staying at the park.

The pedal-carts are specifically designed for commercial hire with robust construction, durable puncture resistant off-road tyres and added safety features such as seatbelts for front seats designed for smaller children. People can bring their own helmets or they can be hired at no extra cost.

With the beautiful Wimmera River setting, well maintained grass sites, family and all-ability-access cabins, camp kitchen and recreation room, and now pedal-carts, the Riverside Holiday Park is continuing its popularity as the perfect place for people to base themselves whilst exploring the region.

Hindmarsh Shire Council Mayor Cr Ron Ismay said, "It has been really exciting to have received the pedal-carts, and they tie in beautifully with the recently opened skate park nearby".

Cr Ismay continued, "The pedal-carts are rugged and perfect for riding around the grounds of the Riverside Holiday Park, and are sure to be a hit with families staying there".
