What is a Building Property Enquiry?

A Building Property Enquiry is a way of requesting information, prescribed under Regulation 51 of the *Building Regulations 2018*, from the relevant Council on a particular address within their municipality.

Information may include, but is not limited to;

- details of any permits or certificate of final inspection issued in the preceding 10 years; and
- details of any current determination made under regulation 64(1) or exemption granted under regulation 231(2); and Notice or Order issued by the relevant building surveyor under the Building Act;
- whether the building or land is in an area that is liable to flooding or is likely to be subject to attack by termites.

If required, please refer to the 'Building Regulations' for full details

Who typically applies for a Building Property Enquiry?

Solicitors or conveyancers acting on behalf of clients who wish to purchase or sell a property are by far the biggest users of this service; however any person can apply for a Property Enquiry.

An applicant should supply a copy of the Certificate of Title, a Plan of Subdivision and, where possible, the Volume and Folio of the address to be researched

What types of information are available?

The type of information available has been categorised into three options. Typically Option 1 and/or Option 2 are requested. On rare occasions, Option 3 is also sought. Please be advised that due to the nature of the information required, Option 3 can take a significant amount of time and may delay your application. It is recommended an applicant request Options 1 and/or 2 as standard, and Option 3 only if it is a necessity.

- Details of statements issued under Reg 64(1) or 231(2)
