Submission details:

I am desperate see childcare established in Rainbow (even if it is a couple of days a week). I don't believe it is fair for other towns in the shire to have this opportunity and we do not. I will be commencing a post graduate course next month and will have to take my 12 month old son to Hopetoun for all day care once a week. This is a trip of 200km a day. I know that this service would be welcomed with open arms and take some strain off mothers that are working or want to return to work. We should not be put at a disadvantage just because of our postcode.

Request to be heard at Council meeting on 29 June in relation to submission?

No
