**Introduction:**

This report provides Council with information on Planning Applications approved under delegation by the CEO and provides an update on VicSmart permits processed by Council for the period 01 July 2022 to 30 September 2022.

**Discussion:**

The VicSmart planning permit process is a statutory process that was introduced to streamline ‘simple’ planning permit applications.

Key features of VicSmart include:

- A 10-business day permit process
- Applications are not advertised
- Information to be submitted with applications and what Council can consider is pre-set
- The CEO or his delegate decides the application.

The table below lists the VicSmart permits that have been approved within this period.

<b>Zoning &amp; Overlays:</b>	General Residential Zone – Schedule 1 (GRZ1) Environmental Significance Overlay – Schedule 6 (ESO6)
<b>Attachment Number:</b>	5

### Summary:

This report recommends that Council approves Planning Permit PA1760-2021 for the development of a second dwelling and fencing, subdivision of land into two (2) lots and vegetation removal on the subject land known as 59 Leahy Street, Nhill VIC 3418 (Lot 1 TP119754V Parish of Balrootan).

### Background:

On 2 December 2021, Hargreaves Design Group on behalf of Mr Rassoul Asanjan lodged a planning application to the Responsible Authority for the development of a second dwelling and fencing, subdivision of land into two (2) lots and vegetation removal at 59 Leahy Street Nhill.

### Proposal Details:

The permit applicant, Hargreaves Design Group seeks approval for the development of a second dwelling and fencing, subdivision of land into two (2) lots and vegetation removal. The subject land is currently improved by an existing residential dwelling at the front of the lot, which is proposed to be subdivided in a 'battle axe' configuration. A new dwelling is proposed at the rear of the lot, comprising a total floor area of approximately 122.24m<sup>2</sup>. An attached alfresco area (19.79m<sup>2</sup>) and garage (22.74m<sup>2</sup>) is also proposed.

The proposed dwelling is characterised by reference to the following features:

- Floor plan:

- 1 x Bedroom with walk in robe (WIR) and ensuite;
- 2 x Bedrooms with built in robe (BIR);
- Open plan living and kitchen area;
- Combined bathroom/shower with separate detached WC; and
- Laundry adjacent to living area.
- External form:
  - A building height of 5.053 metres from natural ground level;
  - Weatherboard cladding; and
  - Colorbond 'monument' roofing.

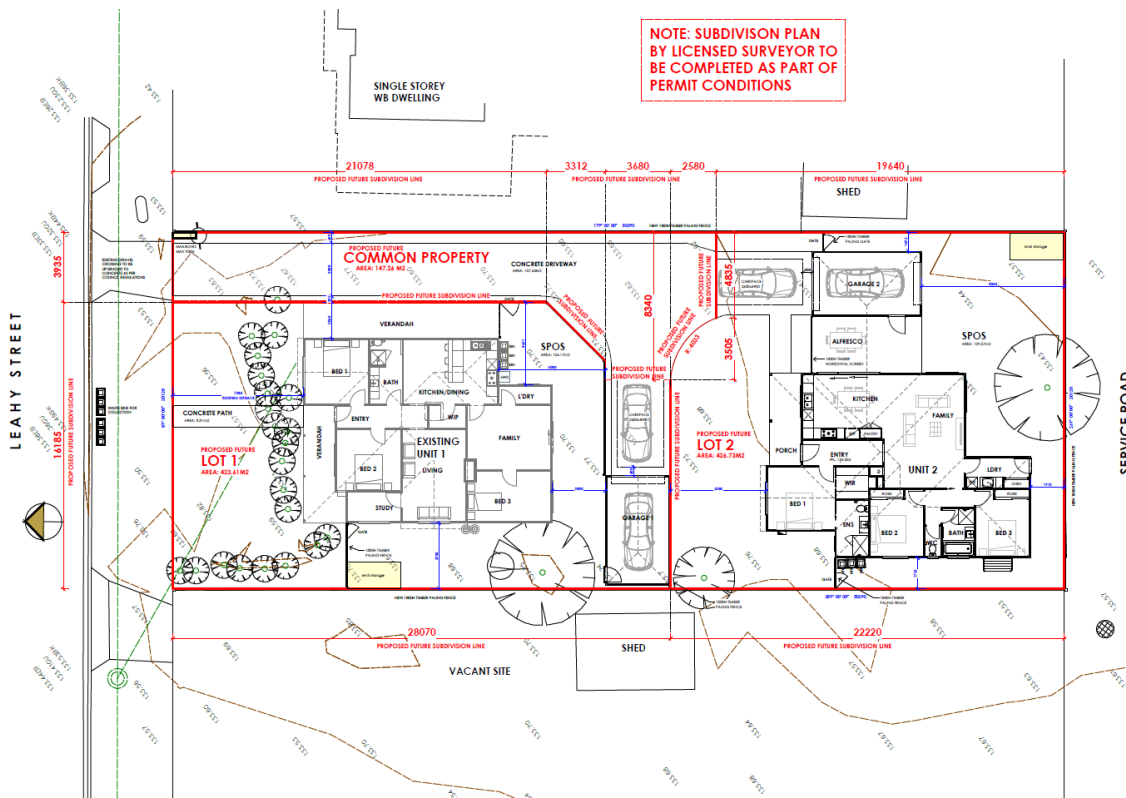

To accommodate the development, existing planted vegetation on the site will be removed, specifically around the existing shed and accessway. Dividing fencing is proposed between the SPOS of dwelling 1 and the common property servicing dwelling 2.

Plans of the proposed dwelling are provided below:

The proposed subdivision of land would result in the existing dwelling located on a lot of 423.61m<sup>2</sup> (proposed Lot 1) and the new dwelling being located on a lot of 426.73m<sup>2</sup> (proposed Lot 2). A common property of 147.26m<sup>2</sup> is proposed to service both lots.

**Requirement for Permit:**

A Planning Permit is required under the following clauses of the Hindmarsh Planning Scheme:

- Clause 32.08-3 (General Residential Zone) – A permit is required to subdivide land.
- Clause 32.08-6 (General Residential Zone) – A permit is required to construct a dwelling if there is at least one dwelling existing on the lot.
- Clause 42.01-2 (Environmental Significance Overlay) – A permit is required to construct a fence that may obstruct the flow of water.
- Clause 42.01-2 (Environmental Significance Overlay) – A permit is required for vegetation removal.
- Clause 42.01-2 (Environmental Significance Overlay) – A permit is required to subdivide land.

**Definitions:**

*Dwelling – A building used as a self-contained residence which must include:*

- a) a kitchen sink;*
- b) food preparation facilities;*
- c) a bath or shower; and*
- d) a toilet and wash basin.*

*It includes outbuildings and works normal to a dwelling.*

**Restrictive Covenant or Section 173 Agreement:**

The subject site is not affected by any Covenants or Section 173 Agreements.

**Cultural Heritage Management Plan (CHMP):**

The proposal is exempt from requiring a CHMP pursuant to the *Aboriginal Heritage Regulations 2018*, as the proposal is not within land affected identified as an area of Aboriginal Cultural Heritage Sensitivity and is an exempt activity under Regulation 9 of the Regulations.

**Subject site & locality:**

The subject site is known as 59 Leahy Street Nhill VIC 3418 (Lot 1 Parish of Balrootan), which comprises a single title of approximately 1,012m<sup>2</sup>. The land is generally flat, with minimal fall across the site. The land is currently improved by an existing dwelling at the front of the site, which is proposed to be subdivided onto a separate lot from the new dwelling proposed.

The subject site adjoins residential zoned land to the north, east and west, with land in the Farming Zone (FZ) to the south. Land within the General Residential Zone generally comprises lots of between 800-2,000m<sup>2</sup> allotments, with some larger land holdings with across multiple parcels evident. Immediately adjoining the subject land are single dwellings on residential lots used for such purposes and vacant land.

The site appears to have access to reticulated power, telecommunications, water and sewer.

**Planning Assessment:**

Planning Scheme Requirements:

**Planning Policy Framework:**

Clause 11.01-1L Settlement – Hindmarsh  
Clause 13.02-1S Bushfire planning  
Clause 15.01-1S Urban design  
Clause 15.01-2S Building design  
Clause 15.01-3S Subdivision design  
Clause 15.01-5S Neighbourhood character  
Clause 16.01-1S Housing supply

**Zoning Provisions:**

**Clause 32.08 – General Residential Zone (GRZ)**

**32.08-3 Subdivision**

A permit is required to subdivide land.

**32.08-6 Construction and extension of two or more dwellings on a lot, dwellings on common property and residential buildings**

A permit is required to construct a dwelling if there is at least one dwelling existing on the lot.

**Planning Response:**

The key considerations applying to this application and the application of policy relate to the level of intensity of development in the GRZ and ResCode compliance, with the overwhelming policy direction being to intensity residential development in such areas in close proximity to jobs, transport and services.

When assessing the application against the state policies in the PPF, there is clear support for the proposed increase in density on the site as the site is well serviced by infrastructure and community services. This ensures efficient use of infrastructure and supports the usual preference that established residential areas experience residual increase in population and density. State policy also encourages new medium density housing to respect neighbourhood character, to which the proposal responds satisfactorily encouraging housing diversity in established areas with access to services.

The built form of the development will achieve architectural and urban design outcomes that contribute positively to the local urban character as required by Clause 15.01-1S of the Scheme given scale, bulk and mass in relation to the adjoining sites. The built form of the dwellings and the area of secluded private open space for each dwelling is appropriate, there are ample landscaping opportunities within the site. The intensity of the development is consistent with relevant Planning Policy.

In conjunction with the subdivision of the land, a Section 173 Agreement will be required as a condition of approval to ensure that the development of land occurs as approved under this permit, or as may otherwise be amended with the approval of Council.

The proposal will not affect rooftop solar systems and meets the relevant objectives of Clause 55 as applicable to this proposal.

**Overlay Provisions:**

The subject land is encumbered by Clause 42.01 - Environmental Significance Overlay - Schedule 6 (ESO6). A permit is required for vegetation removal, including planted vegetation, fencing that may obstruct the flow of water and to subdivide land.

**Planning Response:**

It is considered that the proposed works and subdivision would not impact the objective of ESO6 which aims to protect the catchment area of significant wetlands.

The *Shire of Hindmarsh, Wetlands and Catchments of Conservation Value (WCMA 2007) Decision Guidelines* provides Matrix and Criteria to establish if the proposed removal of vegetation (pine trees) is appropriate.

The below criteria has been identified as relevant to the proposal to remove the pine trees:

*Criteria for Matrix 2 ESO6: Vegetation removal should not degrade the ecological condition of areas covered by ESO 5. Vegetation within ESO 6 plays a number of different roles depending on the proximity of the vegetated land to the high value wetland. (Refer to Appendix 5, Table 3 of buffer distances applicable to vegetation removal).*

The proposed works is at a distance greater than 250m however less than 2000m from the Nhill Lake. Appendix 5, Table 3 states the vegetation role contributes to the protection of inflowing groundwater quality.

Based on this criteria, a desktop assessment has been undertaken about the level of risk likely to occur from the proposed vegetation removal. Given the location of the subject land in the Nhill Urban Area, stormwater discharge from the site is diverted to the existing drain in Leahy Street and into the Council drainage system. The removal of the trees and solid fencing at the rear may result in a marginal increase in stormwater flows off the site, however any such increase will not result in adverse impacts to the water quality of the Nhill Lake. The subdivision has no effect on water flows or quality.

On this basis, the proposal is considered to be acceptable.

**Particular Provisions:**

**Clause 52.06 – Car Parking**

**Clause 52.06-5 – Number of Car Parking Spaces**

Table 1 of this clause provides that two (2) car parking spaces are required for each dwelling having 3 or more bedrooms.

**Planning Response:**

Each dwelling (existing and new) are proposed to be developed with a single garage and a tandem car space in front of the garage. Swept paths have been provided demonstrating that each car parking space can be accessed without encroachment into the other lot. Each dwelling will therefore meet the requirements of the Scheme in relation to car parking numbers.

**Clause 53.01 – Public Open Space Contribution and Subdivision**

A person who proposes to subdivide land must make a contribution to the council for public open space in an amount specified in the schedule to this clause (being a percentage of the land intended to be used for residential, industrial or commercial purposes, or a percentage of the site value of such land, or a combination of both). If no amount is specified, a contribution for public open space may still be required under section 18 of the Subdivision Act 1988.

**53.01-1 – Exemption from public open space requirement specified in the scheme** A subdivision is exempt from a public open space requirement specified in this scheme if:

- *It is one of the following classes of subdivision:*
  - *Class 1: The subdivision of a building used for residential purposes provided each lot contains part of the building. The building must have been constructed or used for residential purposes immediately before 30 October 1989 or a planning permit must have been issued for the building to be constructed or used for residential purposes immediately before that date.*
  - *Class 2: The subdivision of a commercial or industrial building provided each lot contains part of the building. It is for the purpose of excising land to be transferred to a public authority, council or a Minister for a utility installation.*
- *It subdivides land into two lots and the council considers it unlikely that each lot will be further subdivided.*

**Planning Response:**

The proposed subdivision is a two (2) lot subdivision and given the size of the lots and development form, it is considered unlikely that either lot will be further subdivided. Given this, no public open space contribution is required.

**Clause 55 – Two or more Dwellings on a lot and Residential Buildings**

Provisions in this clause apply to an application to:

- Construct a dwelling if there is at least one dwelling existing on the lot, in the Neighbourhood Residential Zone, General Residential Zone, Residential Growth Zone, Mixed Use Zone or Township Zone.

**Planning Response:**

The development comprises the construction of a dwelling with at least one dwelling existing on the lot, and therefore the provisions of Clause 55 apply. An assessment against the relevant objectives and standards of Clause 55 is provided below.

<p><i>To ensure that the design respects the existing neighbourhood character or contributes to neighbourhood character.</i></p> <p><i>To ensure that development responds to the features of the site and the surrounding area</i></p>	Yes	<i>The design response must be appropriate to the neighbourhood and the site.</i>	Yes	<p>As discussed through this report, the character of the area primarily consists of single storey residences on typically 1,000sqm lots with various outbuildings and varied setbacks. Dwelling age, typology and form is also variable in the surrounding area.</p> <p>The proposal represents a small infill development of existing residential land zoned and serviced for such purposes. The proposal provides for a new dwelling with conventional built form with appropriate setbacks to Leahy Street (with no change to the front setback), while retaining the existing dwelling at the front of the property. This development form is consistent with the broader character despite comprising smaller lots/open space than typically found in the streetscape.</p> <p>For these reasons, it is considered that the proposal is an appropriate intensification in the GRZ having regard to the context of the subject land and surrounding area.</p>

The new dwelling provides for windows of all habitable rooms on northern or western elevations to allow solar access, and the height and form of the new dwelling will not unreasonably affect solar access on other existing dwellings. The exception to this is the habitable room window on bedroom 3 of dwelling 2, which is exclusively south facing where west facing solar access can be provided. This will be required by conditions.

		<i>Living areas and private open space should be located on the north side of the development if practicable</i>	No	The SPOS for the proposed dwelling is located on the southern side of the dwelling, which could practicably be avoided through a revised design. However, the POS area provides sufficient setbacks from the southern boundary that solar access will still be achieved to this area, and solar protection can be considered a positive attribute for climatic conditions in the Wimmera over the summer period.
